

School Trip To London

London was the destination for this year's school trip! We had 5 days to enjoy the trip and 3 days to enjoy the beauty of London.

On the second day after we took our breakfast we all walked to the Shakespeare globe theatre. Right after globe we went to the Tate modern which was located next to the theatre. We had to spend two hours in this museum to enjoy the art. Right after we took the old fashioned red bus to get to China town. As it was planned we had more than an hour of free time. The girls sure enjoyed this free time and did all the shopping that they were waiting for. That night we had our dinner at the hard rock café.

On the fourth day after breakfast we went to the famous platform 9 ¾ and took some pictures. Right after we went to the borough market and then the place which we were all waiting for the London dungeons. In the dungeons we all had fun. At the beginning we were scared but after a short time it became really fun place. We have crossed the tower bridge and took tube to get to the BBC TV studios where we made some of the students invisible.

On the third day we have visited the Saatchi gallery. On the Saatchi gallery we saw many nice photograph and art pieces. After we have seen the gallery we had to choose on or more art works and sketch them. After the gallery we went to the Covent Garden and then we had our dinner. Right after dinner we went to Victoria theatre to watch the Wicked Musical.

On the first day we Left Haren on 7:00 O'clock in the morning; when it was still dark outside. Many people used the time in the bus to talk to each other or play games. After couple of hours we have reached France, where we were going to get our passports checked and get on the ferry. After we got on the ferry we had two hours of journey on the water. Some people used Games available on the boat, some people ate some food and others went outside to enjoy see breeze. When we got To London teachers showed us some of the highlights of the city. When we got to the hostel it was all dark. We had about an hour to unpack and get ready to go to the spaghetti house to have delicious spaghetti.

Overall this trip was really good. I highly recommend future students to go to this trip. Hopefully we can visit again soon.
