A typical school day:

- * First Lesson begins at 08.20am if late students need to go to class as normal and the subject teacher will register them as late
- * Any lesson changes will be on the school website so it is always good to check before leaving. Remember check CLASS timetable NOT individual
- * Bicycles should be left in the student racks, if left elsewhere it could get locked to a tree and Mr Weston has the key!
- * Students should come prepared with relevant materials
- * Students should always have their school agenda/phone (also used as form of communication between teacher and parent)
- * Students should of course follow the school rules at all times, all of which they are aware of!

Homework & Subjects:

- * In most cases students should follow all subjects unless alternative arrangements have been made in correspondence with Ms Hartholt, Class Mentor and the Parent. MYP5 newbies have a 2 week window as do oldies
- * Every subject sets homework at least once a week. In addition to this MYP5 students also have to complete ONE C&S project
- * Complete Personal Project
- * MYP5 is a busy year!
- * If workload is too much then students should seek advice.

Mentor Lessons:

Unless something urgent has come up that requires discussion the themes for this year will be as follows:

- * Portfolio to my future
- * Interview techniques
- * Study skills
- * Social awareness
- * Current affairs
- * Summing up my achievements

Students will participate in group discussions, role play activities and develop their portfolio.

Post MYP5 Options

- * DP – your child will have met expectations to go to the School's Diploma Programme
