# A typical school day:

- \* First Lesson begins at 08.20am if late students will be registered late by their teacher.
- \* Any lesson changes will be on the school website so it is always good to check before leaving:
- \* <http://www.isgroningen.nl/>
- \* [calendar](#) (right hand side)
- \* [managebac](#) section (right hand side)
- \* and timetable (work in progress)
- \* Bicycles should be left in the student racks, if left elsewhere it could get locked to a tree and Mr Weston has the key!
- \* Students should come prepared with relevant materials (list on website & emailed)
- \* Students may have their own agenda but are encouraged to check managebac daily
- \* Students should of course follow the school rules at all times, all of which they are aware of after Mr Weston's assembly – 'Just do it'

# Homework & Subjects:

- \* Students and subject choices – Subject choices made just before Christmas break
- \* Every subject sets homework at least once a week. In addition to this MYP4 students also have to complete their Personal Project and S as A project. So a busy year!
- \* Service as Action Project – Mr Meinema will explain
- \* Personal Project - [http://myp.maartenscollege.nl/Personal\\_Project](http://myp.maartenscollege.nl/Personal_Project)
- \* If workload is too much then students **MUST** seek advice at home and at school.

# Mentor Lessons:

Unless something urgent has come up that requires discussion the themes for this year may include the following:

- \* Guest speakers – sign up sheet (you will receive a link via email)
- \* Portfolio to my future
- \* Interview techniques
- \* Study skills
- \* Social awareness
- \* Current affairs
- \* Summing up my achievements
