- After a recent CAS trip to the wonderful city of Krakow some students of the International School Groningen participated in a range of activities and service related exercises enhancing their knowledge and interpretation of this city.
- Students were asked to capture architectural elements, emotional aspects and general scenes that made an everlasting impression on them using Photography.
- After researching the 'Photorealism' movement students were asked to choose one of their images and transfer it into a Photorealism piece of their own. This task has involved many elements of the MYP curriculum and its wonderful to see it all come together in this exhibition.
